This action is responsive to applicant's amendment/remarks filed 10/25/07. Claims 1-7 are currently pending.

The IDS filed 10/25/07 has been considered. An initialed copy accompanies this action.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-7 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Kaminaka et al (2003/0175589).

This rejection is maintained for the reasons set forth in the Rejection mailed 07/20/07 (pages 4-5).

Applicant's remarks have been fully considered but are not deemed persuasive to overcome the above rejection.

Initially, applicant's discussion of the Scherrer Equation at page 18 of the instant specification is noted.

With respect to Kaminaka, applicant argues that the reference does not measure the crystallite size by the Scherrer Equation method (the reference utilizes SEM).

The examiner does not dispute that the prior art relied upon in the rejection utilizes SEM as opposed to the claimed "Scherrer Equation". However, the examiner respectfully submits that the disclosed nanometer-range particle size of (Kaminaka),

measure by whatever means, are identical to the instantly claimed values (as stated in the Rejection). Both methods, as well as other known methods such as laser diffraction, are accurate to within fractions of a nanometer. Although the measurement methodology may be different, the examiner submits that the disclosed prior art values are correct (and overlap with those instantly claimed).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
